

Callaway County  
**COVID-19**  
Update

March 26, 2020

The Callaway County Health Department has received notification that an additional individual at William Woods University has tested positive for Covid 19. The Callaway County Health Department is working to identify anyone this individual has come into close contact with. Everyone identified will be contacted today by the Callaway County Health Department and be advised to isolate in place for 14 days.

None of the individuals who have tested positive is from the community at large. William Woods University continues to assist us with our investigations and is committed to containing the situation to the campus.
