9. NARRATIVE / STATEMENTS (If additional room is necessary, use Section 11 - Narrative / Statements Continuation)

Officer Statement:

Vehicle 1 was traveling west on Walnut Street approaching Sixth Street with emergency lights and siren activated. Vehicle 2 was traveling north on Sixth Street towards Walnut Street with emergency lights and siren activated. Vehicle 2 slowed, then proceeded through a solid red light, with emergency equipment still activated. Vehicle 1 and vehicle 2 collided in the intersection of Walnut Street and Sixth Street. Vehicle 1 then traveled northwest off the roadway, striking a fire hydrant, then traveled over a curb and came to rest in the parking lot of 511 E. Walnut Street. After the collision, vehicle 2 spun 180 degrees and came to rest facing south in the westbound lane of Walnut Street.

This crash was caught on camera via Columbia Police Department external cameras, as well as Driver 1's Watch Guard vehicle camera. Watch Guard cameras use GPS for their speed calculation. Driver 1's speed via GPS on impact was 69 MPH. Using the external camera on the north side of the Columbia Police Department, I determined Driver 1 covered 131 feet in approximately 1.4 seconds. Using these number, I calculated Vehicle 1 had to be traveling at least 63 MPH at impact.

While investigating the crash, I observed Vehicle 2's vision was obstructed by the Columbia Police Department building and the Columbia Police Department Evidence Van, which was parked on the south side of Walnut St.

Driver Statement:

Dameron advised traveling west on Walnut towards the shots fired when he collided with the other vehicle. Dameron advised after the collision he must have blacked out.

Nelson advised he had just pulled out of the police department and was traveling north on Sixth Street. Nelson advised he thought he cleared the intersection but collided with vehicle 1.
