

2021-2022 Maintenance records of all work orders and repairs to school doors and locks.

pursuant to Sections 610.021(18), (19), and (20) regarding operational guidelines for responding to and/or prevent critical incidents that has the potential to endanger public health or safety; security systems and structural plans relating to the protection of district property, the disclosure of which would jeopardize public safety; and records that identify security systems or access codes. Disclosure of the foregoing records would substantially impair the district's ability to protect the security and safety of persons or property. Therefore, the public interest in nondisclosure outweighs the public interest in disclosure of the records.

2021-2022 Locked classroom door policy.

There is no board policy regarding locked classroom doors. To the extent that internal security procedures exist regarding locked classroom doors, those records would be closed pursuant to Sections 610.021(18), (19), and (20) regarding operational guidelines for responding to and/or prevent critical incidents that has the potential to endanger public health or safety; security systems and structural plans relating to the protection of district property, the disclosure of which would jeopardize public safety; and records that identify security systems or access codes. Disclosure of the foregoing records would substantially impair the district's ability to protect the security and safety of persons or property. Therefore, the public interest in nondisclosure outweighs the public interest in disclosure of the records.

2021-2022 Locked door inspection reports for all schools. How many inspections conducted to ensure doors are properly locked?

There are no formal documented inspection reports. To the extent that internal procedures exist regarding the inspection of locked classroom doors, those records would be closed pursuant to Sections 610.021(18), (19), and (20) regarding operational guidelines for responding to and/or prevent critical incidents that has the potential to endanger public health or safety; security systems and structural plans relating to the protection of district property, the disclosure of which would jeopardize public safety; and records that identify security systems or access codes. Disclosure of the foregoing records would substantially impair the district's ability to protect the security and safety of persons or property. Therefore, the public interest in nondisclosure outweighs the public interest in disclosure of the records.

2021-2022 A copy of lockdown policy and procedures.

All district policies are available on-line and may be viewed at the district website. To the extent that internal procedures exist regarding lockdowns, those records would be closed pursuant to Sections 610.021(18), (19), and (20) regarding operational guidelines for responding to and/or prevent critical incidents that has the potential to endanger public health or safety; security systems and structural plans relating to the protection of district property, the disclosure of which would jeopardize public safety; and records that identify security systems or access codes. Disclosure of the foregoing records would substantially impair the district's ability to protect the security and safety of persons or property. Therefore, the public interest in nondisclosure outweighs the public interest in disclosure of the records.

2021-2022 number of "lockdowns/threat alerts" issued by administration during the school year for all schools.

There were no building lockdowns issued in 2021-22.

2017-2022 expense reports of classroom/school building security purchases.

See construction sheet

2017-2023 a copy of any school district applications submitted for school security grants.

Fulton Public Schools has not applied for any security grants I am aware since 2017.
